PROFESSIONAL EXPERIENCE

Game analyst

Berlin Recycling Volleys

2019 - 2023 Berlin

https://www.berlin-recycling-volleys.de/

As a game analyst, I collected and analyzed data to develop game strategies, working closely with the coaching staff. Recognizing opportunities for automation in my workflow, I took the initiative to learn Python, resulting in improving efficiency, and deepening my passion for coding.

PROJECTS

TotArt

2024 Code Academy Berlin

https://tot-art-v-2-0.vercel.app/

Online platform for sharing interesting locations in Berlin. In this project I:

- Gained more experience in building full MERN stack application
- Ensured type safety across both the frontend and backend using Typescript
- **Stack** - Next.js, Typescript, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose

Codask

2023 Code Academy Berlin

https://github.com/helene-abiassi/CodaSk

Online platform to share code and solve coding problems. In this project I:

- Collaborated on a GitHub project, enhancing my ability to work within a team environment
- Implemented a Figma design, gaining valuable experience in translating UI/UX designs into functional interfaces
- **Stack** - Next.js, Typescript, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose, GraphQL

ForkIt

2023 Code Academy Berlin

https://forkitorleaveit.netlify.app/

Food blog-style web application. In this project I:

- Gained experience in writing clear, scalable and reusable code with React
- **Stack** - React, Typescript, Sass, Firebase, Spoonacular API

Mars Rover

2023 Code Academy Berlin

https://marsroverapp.netlify.app

Developed an application for space enthusiasts, where I:

- Gained my first experience in Unit Testing using Jest
- Leveraged module bundling with Webpack to optimize the project's structure and performance
- **Stack** - Typescript, Sass, Vitest, Webpack, NASA API

LANGUAGES

Polish Native English Proficient
German Advanced
