PROFESSIONAL EXPERIENCE

Game analyst

Berlin Recycling Volleys   📅 2019 - 2023   📍 Berlin

🔗 https://www.berlin-recycling-volleys.de/

I was mainly responsible for collecting the data, preparing the strategy closely collaborating with coaching staff and communicating the plan to the team. Seeing that some time-consuming tasks could be automated, I started learning the basics of Python.

· Designed and implemented efficient method to analyse and present data
· Developed and maintained several Python scripts which significantly reduced the time needed to prepare for each game

PROJECTS

Codask

🔗 https://github.com/helene-abiassi/CodaSk

Online platform to share code and solve coding problems. In this project I:

· Learned to collaborate with the team on a GitHub project
· Gained my first experience in implementing Figma design in the project
· **Stack** - Next.js, Typescript, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose, GraphQL

TotArt

🔗 https://github.com/RZajacc/totArt_v.2.0

Online platform to share interesting locations in Berlin. In this project I:

· Learned how to build and manage REST API with Node.js
· Ensured type safety on the backend with Typescript and Node.js
· **Stack -** Next.js, Typescript, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose

ForkIt

🔗 https://forkitorleaveit.netlify.app/

Food blog-style web application. In this project I:

· Learned how to build reusable and scalable code with React components
· Learned how to implement Google Firebase in my project to store data and authenticate users
· **Stack -** React, Typescript, Sass, Firebase, Spoonacular API

Mars Rover

🔗 https://marsroverapp.netlify.app

Application designed for space enthusiasts. This project helped me:

· Gain a solid understanding of frontend coding principles
· Learn how to consume data from an external API
· Gain my first experience in Unit Testing
· **Stack -** JavaScript, TypeScript, Sass, Vitest, Webpack, NASA API

SUMMARY

Spending most of my professional career in volleyball teams, I learned the importance of clear communication and cooperation to achieve team success. The moment I started using code to solve some of my daily tasks, I realized that the time I spent coding was the time I enjoyed the most.

EDUCATION

Full Stack Web Development

Code Academy Berlin

📅 07/2023 - 12/2023
📍 Berlin
· Full-time onsite Bootcamp
· MERN as a leading technology stack
· Working in SCRUM methodology

Computer Science

WSBiA in Lublin

📅 2016 - 2018
📍 Lublin, PL

M. A Physical Education

AWF Katowice

📅 2006 - 2011
📍 Katowice, PL

SKILLS

Front-end

HTML	CSS	Sass	Tailwind CSS
Bootstrap	JavaScript	TypeScript	
React.js	Next.js		

Back-end

Node.js	Express.js	MongoDB
Mongoose	GraphQL	Firebase

Development & Operations

Unit Testing	Jest	Vitest	Webpack
Vite	Apollo	Git	Github	Scrum
