SUMMARY

Full Stack Developer, curious about the entire development process. Committed to delivering robust, maintainable features, valuing teamwork and trusted relationships. Currently expanding expertise in cloud architecture and pursuing AWS Solutions Architect certification.

EXPERIENCE

Fullstack Developer

Sensorfarm Polska

April 2025 - Present, Warsaw

- Leading ongoing migration from legacy Java/JSP to NestJS/React, improving maintainability and reducing technical debt.
- Designed and implemented secure authentication & user registration flows using JWT with token rotation and refresh mechanisms.
- Built email-based password reset with secure token validation and expiration logic, following security best practices.
- Developed interactive dashboard using React Grid Layout with drag-and-drop functionality.
- Implemented unit & integration tests (Jest/Vitest), achieving 57% code coverage.

Game analyst

Berlin Recycling Volleys

August 2018 - May 2023, Berlin

- Collected, cleaned, and analyzed game data using Python automation, reducing processing time by ~50%.
- Created data visualizations to communicate strategic insights.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Zustand, TailwindCSS, MaterialUI, Jest

Backend: NestJS, Node.js, Typescript, MongoDB, MySQL, TypeORM

DevOps & Infrastructure: Docker, Git, GitHub Actions, AWS

COURSEWORK

Ultimate AWS Certified Solutions Architect Associate 2026

Udemy (Ongoing)

PROJECT

Codask

Code Academy Berlin • codask.org/ • July 2023 - December 2023

- Collaborated with team on project design and development during bootcamp.
- Implemented Git workflow with feature branches and code reviews.
- Built responsive UI from Figma designs using React and Tailwind CSS.
- Deployed frontend on AWS (S3 + CloudFront, Route 53 domain).
- Deployed backend on AWS Lambda with API Gateway.
- Configured CI/CD pipelines using GitHub Actions for automated deployments.

ForkIt

Code Academy Berlin • forkitorleaveit.netlify.app/ • July 2023 - December 2023

- Developed a culinary blog platform integrating the Spoonacular API for recipe data and meal planning.
- Implemented secure user authentication and real-time data storage using Google Firebase.
- Developed responsive React UI with SCSS for styling.

EDUCATION

Full Stack Web Development (MERN Stack)

Code Academy Berlin • Berlin • 2023

Computer Science

University College of Enterprise and Administration in Lublin • Lublin • 2018

MA Sport Science

Academy of Physical Education in Katowice • Katowice • 2011
